Our Story

It's no mistake that our name connotes a high-level of energy. DYNAMO!

To be Dynamo is to be the best at what we do, building the path for maximum returns for our clients. We have a dynamic team committed to delivering product excellence and ongoing client success. Every facet of our business is in high-growth because our clients need us not only on top of our game, but building for the future investment demands facing our global economy.

We're proud of our 20+ year heritage, with a combination of U.S. and European roots. We take business ethics seriously, along with the trust, confidence, and support we have earned working with fund managers, institutional investors, and service providers since 1998. Our collaborative approach with our clients has enabled us to solve key challenges in the alternative investment ecosystem.

Today, we are proud to offer a **complete investment management platform** that is configurable, cloud-based, automated, and versatile. Our advanced CRM, deal management, fundraising, and investor relations functionalities allow GP firms to improve communication and collaboration. Users can even leverage our back-office systems for portfolio monitoring, fund accounting, and secure online reporting features, all within a single, integrated system.

LPs can leverage our centralized investment **research management** and **portfolio management** modules, **Dynamo Data Automation** services, **portfolio tracking and analysis**, and visual portfolio reporting to make educated investment decisions.

With Dynamo, there is a better way to take control of your investment and portfolio insights. We're ready to show you how.
